

- Briefly describe planting project for requested trees (attach sheets).
- Please provide a sketch of the planting site, showing north arrow, buildings, walls, sidewalks, driveways, and above and underground utilities (attach sheet).
- Briefly describe irrigation system for requested trees (attach sheets).
- Describe the maintenance plan for the requested trees (attach sheets).
- Briefly describe other environmental projects, if applicable (attach sheets).
- Please provide a one page detailed maintenance description. Tell us the who, what, when and where's of project maintenance. Include succession planning, should the primary coordinator/group be unable to fulfill maintenance requirements. Part of your project score will be based on this description.

Why are trees being planted?

Will the trees be accessible to the public?

Do you have property owner's permission?

Is the location permanent?

Is construction planned on this location?

Will this planting be part of curriculum activities?

Preferred Planting Date*:

Alternative Planting Date*:

*Trees may also be picked up at WTUFC Fall Tree Conference, date and time TBA.
